PROFILE

Aspiring Data Analyst and Business Analyst with strong skills in Python, SQL, Power BI, Tableau, and Excel. Experienced in data cleaning, exploratory data analysis, dashboard development, and business reporting through academic and personal projects. Passionate about transforming raw data into actionable insights to support business decision-making.

EDUCATION

ICFAI University

B.Tech in Data Science and Artificial Intelligence

Hyderabad, Telangana

2022 – 2026

SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, EDA, ETL

Visualization Tools: Power BI, Tableau, Matplotlib, Excel

Databases: MySQL

Business Analytics: KPI Reporting, Dashboard Development, Data Visualization

Tools: Git, GitHub, VS Code

Soft Skills: Problem Solving, Communication, Analytical Thinking

PROJECTS

Customer Churn Analysis | Python, SQL, Power BI

- Analyzed 7,000+ customer records from the IBM Telco dataset to identify customer churn behavior and retention trends.
- Performed data cleaning, exploratory data analysis, and KPI analysis using Python, Pandas, and SQL.
- Built interactive Power BI dashboards to visualize customer segmentation, churn trends, and business performance metrics.
- Generated actionable insights to identify high-risk customer groups and support business decision-making.

Retail Sales Analytics Dashboard | SQL, Python, Tableau

- Developed an interactive Tableau dashboard for analyzing sales, profit, and regional performance using MySQL datasets.
- Created KPI visualizations and dynamic filters to provide business insights from retail sales data.
- Cleaned, transformed, and imported large datasets into MySQL using Python automation scripts.
- Improved reporting efficiency by automating data preprocessing and dashboard workflows.

E-Commerce Sales Dashboard | Power BI, Excel, SQL

- Built an interactive sales dashboard to track product performance, revenue trends, and customer purchasing behavior.
- Created KPI reports and visualizations to support business analysis and decision-making.
- Used SQL and Excel for data extraction, cleaning, and transformation before dashboard development.
- Improved data reporting accuracy and dashboard usability through effective visualization techniques.

EXPERIENCE

Data Analyst & Dashboard Development Intern

July 2025 – December 2025

UVXYZ Company

- Developed and managed the admin dashboard for the Eruvaka Foods e-commerce platform using Django.
- Implemented product management features including product categorization, star labeling, and dynamic dashboard updates.
- Enabled and optimized cart functionality and backend operations to improve product management and user experience.

CERTIFICATIONS

- Python for Data Science Certification
- Power BI and Tableau Dashboard Development Certification

ACHIEVEMENTS

- Developed and deployed multiple end-to-end analytics and dashboard projects using Python, SQL, Power BI, and Tableau.
- Built responsive portfolio website and hosted projects using GitHub and Vercel.
- Strong interest in Data Analytics, Business Intelligence, and data-driven decision-making.
