OBJECTIVE

Data Analyst and Backend Developer with hands-on experience in SQL, Python, and data visualization. Skilled in transforming raw data into actionable insights and building scalable web applications using Django and REST APIs. Seeking an entry-level Data Analyst role to apply analytical skills and contribute to data-driven decision-making.

EDUCATION

B.Tech in Data Science and Artificial Intelligence

2022-2026

ICFAI university, Hyderabad, Telengana

SKILLS

Programming Languages	Python, SQL.
Data Analysis	Pandas, NumPy, Data Cleaning, EDA
Visualization	Power BI, Matplotlib, Excel
Tools	Git, VS Code,
Soft Skills	Problem Solving, Communication, Analytical Thinking

EXPERIENCE

Backend Developer Intern

2025

UVXYZ Company

- Built a dynamic product dashboard using Django with full CRUD functionality.
- Developed features including product creation, deletion, description management, and rating system.
- Implemented dynamic pricing logic and optimized backend performance.
- Designed and integrated a complete cart system with add/remove/update features.
- Developed and connected contact form API for user interaction and data handling.
- Ensured seamless integration between frontend (React) and backend (Django REST APIs).

PROJECTS

E-Commerce Dashboard System

Developed a full-stack application using Django and React featuring product management, cart functionality, dynamic pricing, and user interaction modules.

Sales Data Analysis Project

Analyzed large datasets using SQL and Python to extract insights and improve business decision-making.

Power BI Dashboard

Created interactive dashboards with KPIs and visual insights for business analytics using Power BI.

EXTRA-CURRICULAR ACTIVITIES

- Practiced data analysis and problem-solving through real-world datasets.
- Continuously learning new tools and technologies in data analytics and backend development.
